

Wichmann, S. Rama, T., and Holman, E. W.:  
*Phonological Diversity, Word Length, and Population Sizes Across  
 Languages: The ASJP Evidence*

— Online Supplementary Materials —

**Table 1. Data on individual languages**

Abbreviations & conventions: ISO = ISO 639-3 language code; Language = name of language as appearing in the ASJP Database; AusNG = Australia & New Guinea; NAM = North America; SAM = South America; SEAO = Southeast Asia and Oceania; Att = number of attested words (out of 40); MWL = mean word length; SR = number of segments represented in each word list; Pop = population; logPop = logarithm of population; NA = not applicable.

**Table 2. Data on the comparison of UPSID and ASJP**

Abbreviations & conventions: ISO = ISO 639-3 language code; UPSIDname = name of language as appearing in UPSID; ASJPname = name of language as appearing in the ASJP Database; S = number of segments according to UPSID; MWL = mean word length of ASJP word list; SR = segments represented in ASJP word list, Att = number of attested words (out of 40).
